How long will it take me to earn my degree at Stockton?

Most degrees at Stockton require a minimum of 128 credits to complete. Some require more.

Will credits I earned at an institution that is not regionally accredited transfer?

Unfortunately, no.

Additionally, we are not able to accept credits from certificate-granting proprietary institutions, such as computer science institutes or technical business schools that are unaccredited.

If I do not hold an associate degree, can I still transfer to Stockton?

Yes, your transcript is then evaluated on a course-by-course basis.

Does my grade point average transfer?

No. You start with a new GPA at Stockton.

Are county college credits accepted at Stockton?

Yes! Stockton guarantees that if you hold an Associate in Arts (AA) or Associate in Science (AS) from a New Jersey community college, or an accredited community college from another state, we will accept the degree intact, up to 64 credits. Associate in Applied Science (AAS) degrees will be evaluated on a course-by-course basis. Find out if your county college participates in Stockton Transfer Pathways for added benefits. stockton.edu/pathways

How will I know which credits have transferred?

Shortly after your admission acceptance, you will receive instructions on how to access your current credit evaluation in Degree Works, an advising & registration tool that you will utilize throughout your time at Stockton. It's important to note that only courses for which we have an official transcript will be evaluated; any courses in progress or on an unofficial transcript will not be evaluated until receipt of an official transcript. Unofficial transcripts will be used for admissions purposes only.
