and student success.

Trustee Worthington then called upon Dr. Robert Heinrich, Chief Enrollment Management Officer, to provide the Spring 2020 enrollment and activity report. Dr. Heinrich reported:

- New student goal for spring 2020 was 546. Goal was exceeded with 547 new students. This number represents a 3% increase over spring 2019.
- Total institutional headcount including undergraduate and graduate students for spring 2020 is 9,367. That’s also a 3% increase over spring 2019.
- 4% increase over spring 2019 in full time equivalency with 9,040 students.
- Seven additional courses were added at the Atlantic City campus.
- Upcoming open houses - March 1 and March 29, 2020.
- Admitted Students Day is April 5, 2020
- 3rd Annual Diversity Celebration dinner is March 27, 2020

President Kesselman remarked on how Stockton's goal was to grow 2% on an annual basis and the institution achieved this goal. Also, headcount is up 3% and FTE is up 4%, which is why the overall enrollment numbers are up. These figures have increased due to retention efforts and because students are enrolling at a higher number of credits per student.

Trustee Worthington then thanked Dr. Heinrich on all of his work in retaining students.

President Kesselman thanked Peter Baratta, Chief Planning Officer, and his team for their support by providing data on a daily basis.

Trustee Schoffer remarked on how enrollment is becoming a challenge for all universities but with the Galloway and Atlantic City campuses increasing enrollment and housing, Stockton continues to demonstrate success.

Policy I-1.5: Evaluation of the University President and Board of Trustees

Summary of Key Changes

The Policy has been updated as follows:

- Changed policy format to match new template;
- Updated policy administrator to Executive Vice President and Chief of Staff;
- Updated the review history.
Evaluation of the performance of the University President and Board of Trustees on a systematic basis is a primary method for improving individual and institutional performance, strengthening University operations, and upholding the University’s mission.

The selection, appointment, reappointment, and evaluation of the University President, who by law serves at the pleasure of and is directly responsible to the Board of Trustees, is one of the most important responsibilities of the Board of Trustees. For this reason, the Board of Trustees establishes the criteria and procedures that define the Presidential evaluation process.

The evaluation of the University President is performed annually by the Executive Committee of the Board of Trustees or by an independent evaluator external to the University selected by the Board of Trustees and the President. Such evaluation constitutes a means for regular review of the performance of the University President.

The Board of Trustees will establish criteria to be utilized for the evaluation of its own performance as a Board. Such criteria will be based upon applicable statutes, governmental regulations, and guidelines provided by the Association of Governing Boards.

Policy Administrator: Executive Vice President and Chief of Staff
Effective Date: July 6, 2016, TBD
Index Cross-References: Procedure 1060 – Policy and Procedure Development and Approval Policy File Number: VI-70
Approved By: Board of Trustees

University Policy is only established through formal processes adopted upon recommendation of the University President and by resolution of the Board of Trustees.

University Procedure is only established through formal guidelines recommended by the University Cabinet and approved by the University President.

Policies and procedures are developed at the University through a process of collaboration among stakeholders.

ADMINISTRATION OF POLICIES AND PROCEDURES:

To ensure access to University policies and procedures, the University will maintain an official Stockton University Policy and Procedure Webpage with all approved policies and procedures. The webpage will be maintained by the Office of the President using a standard electronic format and consistent structure for policies and procedures. The policies and procedures on the Stockton University Policy and Procedure Webpage will constitute the official electronic repository for all University policies and procedures.

In order to maintain an organized system of change control and to ensure consistency throughout the University, individual department websites must not contain separate copies or versions of University policies and procedures. Department websites that reference the University’s policies and procedures must use hyperlinks to the documents on the official Stockton University Policy and Procedure Webpage. This does not preclude departments from maintaining internal departmental guidelines on their websites; however, these departmental guidelines should not be identified as official University policy and procedure. In no event will departmental guidelines conflict with official University policy and procedure.
