QUICK TIPS
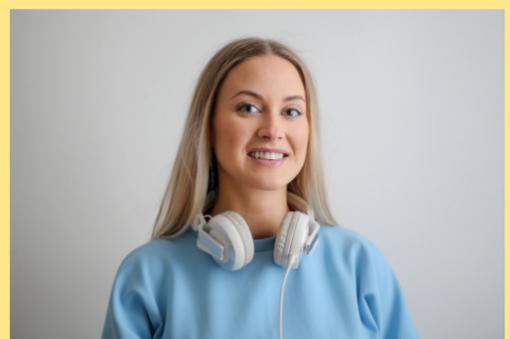

TEACHING WITH ZOOM

ADJUSTING YOUR VIDEO IMAGE

YOU

Make sure your face and at least a quarter of your upper torso shows on your webcam

YOUR ZOOM IMAGE

ROOM BRIGHTNESS

LIGHTING

Natural or artificial lighting should be directed towards your face. Avoid seating in front of an open window or bright light

BACKGROUND

Your background should be uncluttered. Consider using Zoom **Virtual Backgrounds** to add a visual theme

NEAT BACKDROP

YOUR FOCUS

EYES ON AUDIENCE

Look at the camera during your presentation. It gives the sense of direct eye contact and increases visual engagement.
