ETS offers tests in a computer-delivered format. These computer-delivered assessments are given by appointment through a national network of Prometric™ Testing Centers including at Stockton in room G-108 (search keyword ETS). See www.ets.org/praxis/nj for information. The computer-delivered tests have different test codes than the original paper-based format. In general, test codes that begin with “5” or “6” are delivered in computer format; codes that begin with “0” or “1” are the old paper-based.
