

GENS Learning Outcomes:

Students will be able to:

Outcome 1: Integrative Learning

Incorporate multiple perspectives in making meaningful connections across disciplines and in relation to personal and human experiences.

Outcome 2: Information Literacy

Find, select, evaluate, and use information efficiently, effectively and responsibly.

Outcome 3: Critical Thinking & Reasoning

Use critical thinking and reasoning skills to guide decisions, actions and judgments.

Outcome 4: Quantitative Literacy

Draw conclusions and make decisions through analyzing numerical and/or statistical data.

Outcome 5: Written & Oral Communication

Communicate effectively, both orally and in writing, through careful examination and composition of written texts and oral expression.

Outcome 6: Artistic & Cultural Expression

Interpret artistic and cultural expression from personal, aesthetic, cultural, historical or critical perspectives.

Outcome 7: Scientific Knowledge

Develop basic knowledge of the natural and physical sciences, including an understanding of the methods and applications of scientific inquiry.

Outcome 8: Intercultural Knowledge

Evaluate and compare the practices, experiences, beliefs, and issues of different cultural, racial, gender, religious, and ethnic groups.

Outcome 9: Global Learning

Engage in the systematic study of the nature, scope, history, and complexity of human societies, social structures, and cultural practices in transnational and global contexts.

Outcome 10: Ethical Reasoning

Analyze and assess ethical issues from multiple perspectives, and apply ethical frameworks in decisions, actions and judgments.

Outcome 11: Civic Engagement

Analyze local, national, or world political issues, participate in civic and democratic processes, and/or engage with others in organizing purposeful action.

Outcome 12: Teamwork and Collaboration

Engage in collaborative efforts and contribute effectively to team activities to foster constructive group interactions and achieve shared goals.
