

STOCKTON UNIVERSITY

PROCEDURE

Double Major

Procedure Administrator: Associate Provost
Authority:
Effective Date: August 6, 2013
Index Cross-References: II-24 – Double Major
Procedure File Number: 2022
Approved By: Herman J. Saatkamp, Jr., President

PROCEDURE:

1. The double major consists of one degree with two majors. Both majors chosen for the double major program must lead to the same degree (i.e., Bachelor of Arts or Bachelor of Science). The student, in consultation with faculty preceptors from both majors, will choose which major should be listed first.
2. A student who has completed at least one semester at Stockton may declare a double major in accordance with the definition and parameters described above.
3. Courses used to satisfy the requirements of a student's primary major may also be used to satisfy the requirements of an approved secondary major.
4. Courses common to both majors may be counted toward the requirements of each major. Other course substitutions may be possible.
5. The minimum number of credits required for the double major is the same as for any other degree program: 128.
6. Students who graduate with a double major will receive only one degree. Both majors will be listed on the transcript.
7. Approval for this program must be secured from a faculty preceptor and the program coordinator in both majors.

8. For purposes of participation in the commencement ceremony, it is assumed that the student in the double major program will march with the School that houses the primary major. If the student wishes to march with the School that houses the secondary major, he or she must indicate that preference at the time of application for graduation.
9. Appeals to any aspect of the policy on double majors should be made to the Office of the Provost.
