Internal Awards Fiscal Year 20 Calendar

The Calendar of [ORSP Internal Awards for Academic Year 2019 - 2020](#) is now available on the Office of Research and Sponsored Programs website. Be sure to mark your calendar to attend the RPD Info Sessions for both Sabbaticals and Main Round applications as well.

For information regarding specifics for each award, see the [Internal Award Guidelines](#), also available on the Calendar page.

Research Grants

Russell Sage Foundation (RSF)

Deadline: Letter of Inquiry - August 21, 2019
Proposal - November 21, 2019

Amount: Upper \$175,000 - Trustee Grants are generally capped at \$175,000, including 15 percent indirect costs. Presidential Grants are capped at \$35,000 (no indirect costs). PIs may request up to \$50,000 (no indirect costs) when the proposed research project has special needs for gathering data (e.g.: qualitative research) or gaining access to restricted-use data.

Abstract: The Russell Sage Foundation (RSF) is launching a new special initiative on Decision Making and Human Behavior in Context that will support innovative research on decision making across the social sciences that examines causes, consequences, processes, or context from a behavioral or alternative perspective. We seek to support a wide range of research on decision-making in context by scholars in psychology, political science, sociology, and other social science fields who are pursuing questions consistent with the aims of the Foundation.

This initiative will support research proposals from multiple methodological perspectives that will further our understanding of decision making processes and human behavior in the contexts of work, race, ethnicity, immigration, and social inequality, broadly conceived, in the U.S. Priority will be given to research related to our core programs and other special initiatives. Limited consideration will be given to projects that test well-established behavioral effects without examining the overarching context or the underlying mechanisms.

Eligibility: All applicants (both PIs and Co-PIs) must have a doctorate. In rare circumstances, RSF may consider applications from scholars who do not hold a doctorate but can demonstrate a strong career background that establishes their ability to conduct high-level, peer-reviewed scholarly research. Students may not be applicants.

All nationalities are eligible to apply and applicants do not have to reside in the U.S., but the focus of the proposed research project must be on the U.S. as per our mission.
