**Stockton University Student Senate  
Resolution Sp17-002:  
Recommendation in regards to the Open Meeting Module**

**Whereas,** The Student Senate is the elected voice of the approximately 8,500 students who attend Stockton University; and

**Whereas,** Recently the Faculty Senate has presented a recommendation from their Module Task Force requesting that Stockton University change its open meeting module on Tuesdays and Thursdays from 4:30-6:00pm to a starting time between 12:00-2:00pm /12:30-1:50pm on Tuesdays and Thursdays; and

**Whereas,** According to the Faculty Senate's Module Task Force survey conducted last April, 52% of the 769 students who responded indicated that the current module is convenient for them (Module Task Force: Final Report, p. 10); and

**Whereas,** Most students who responded to the survey preferred meetings between 2:00-6:00pm (Module Task Force: Final Report, p. 10); and

**Whereas,** The Student Senate was asked their official opinion on a module change that would begin at 12:30pm on Tuesdays and Thursdays; and

**Whereas,** We believe that a 12:30pm open module time would negatively impact both the University and student's extracurricular meetings and activities; and

First: Minutes from March 28<sup>th</sup>, 2017 (Full)  
Second: Minutes from April 4<sup>th</sup>, 2017 (Emergency)  
Third: Minutes from Committee

**Whereas,** We believe that a 12:30pm open module time would overburden the eating facilities on campus, significantly reducing available meeting time;

**However,** We understand the importance of this change and the circumstances under which some faculty are advocating for an earlier meeting module; and as per the request of the University, we the Student Senate conducted another survey this semester to measure the preference of our constituents; and

**Whereas,** The results of this survey illustrated that 64.3% of students prefer the open meeting module to remain at 4:30pm; 20% of students would like the module to begin at 2:30pm, and 15.7% of students would like the module to begin at 12:30pm;

**Be it Resolved,** We believe the University should continue the open meeting module at 4:30pm as per the results of both the Student Senate and Faculty Senate surveys; and

**Be it Further**

**Resolved,** The Stockton University Student Senate hereby submits this request to President Kesselman, All Cabinet Members, the Faculty Senate, and the Board of Trustees.

**President Maryam Sarhan**

**Vice President Victoria Dambroski**

Student Senate Vice President

President Sarhan opened the floor to the Senators for discussion.

Chair Solowey stated that he is in support of the 4:30pm module start time because a majority of the students are in favor of this start time.

Chair Hanvey explained that she feels the Student Senate should listen to the voice of the students when making the decision.

**Chair Solowey motioned to yield the floor to the public for comments.**

Brian Tyrrell, the President of the Faculty Senate, stated that in the results to the meeting module survey showed, 5% of the students voted more than once. He also stated that one out of three responses to the open-ended portion indicate that students chose the 4:30 start time because there is no class at that time, indicating that the students did not understand the question posed by the survey. He also pointed out that the survey did not offer anonymity. President Tyrrell then

Second: Minutes from April 4<sup>th</sup>, 2017 (Emergency)  
Third: Minutes from Committee

explained the reason for the desired switch in the meeting module time. He explained that it is difficult for some faculty members with families to stay at work until 6:00, when the current meeting module ends. He then stated that 60% of the current faculty have been here for five years or less, meaning that most of the faculty members are young. He explained that Stockton University must cultivate the next generation of leaders amongst its faculty, and if they are not willing to stay until 6:00 to participate in meetings, the faculty may not excel, which will have a negative impact on students. President Tyrrell then stated that the resolution is not correct in the sense that the faculty did consider a start time of 2:30. He also explained that open meetings were held about this issue and no students appeared at the meetings. He then asked if there were any questions.

Chair Solowey then asked what other start time would be practical during the 12:00-2:00 time period besides 12:30.

Brian Tyrrell then explained that 12:30 would currently be the only practical time to begin the module, unless the provost chose to rearrange the class schedule. He then explained that he did place the 2:30 time suggestion among the choices on his survey because he does not agree with the 12:30 start time. President Tyrrell then explained that the faculty has been discussing the issue for six months, and that the Student Senate has only been discussing it for about a week. He then called into question the reliability of the responses to the student survey, again stating that one out of three of the respondents did not offer an explanation that conflicted with either a 12:30 or a 2:30 start time.

Chair Solowey then stated that he reassessed the math, removing 33% of the votes that are unreliable, revealing that 54% of the students who did understand the survey are in favor of a 4:30pm start time.

Chair Senator Hanvey then asked if the meeting module were moved to an earlier time, would it create more late class modules.

Brian Tyrrell then stated that the faculty selects their own class schedule. He stated that currently, the period before the 4:30pm module is completely utilized, and the period after the 4:30pm module is also completely utilized, suggesting that if the start of the module was shifted by two hours and replaced with a class that there would still be complete utilization of the class module. President Turell then explained that a change in the meeting module time will have a more drastic, long-term effect on the faculty than it would on the students.

Chair Hanvey then stated that most of the students stated that a 4:30pm meeting module is preferable, so she is in support of her constituents.

Vice President Dambroski then explained that if the 5% of students who supposedly took the student survey more than once were removed, the student survey still received more responses than the task force survey. She then stated that the task force survey also revealed that most of

the students would like the module to remain at the same time. Vice President Dambroski then explained that the lack of anonymity was not an issue with the survey.

Brian Tyrrell then stated that the anonymity of a survey response is very important for providing accurate, credible results, and that the lack of anonymity is very concerning.

President Sarhan then stated that the students were aware that they were not taking the survey anonymously, and that it was important for them to take the survey with their school email to ensure that only Stockton students were replying. She explained that students knowingly entered their email address in two places on the survey. President Sarhan then stated that the survey question was posed objectively and clearly.

Brian Tyrrell then stated that non-students could have taken the survey if the Stockton email address was the only form of security. He explained that there is a system called Qualtrics which would have prevented the 5% of students who voted twice to do so. He then stated that there are respondent biases that enter into a response when there is no promise of anonymity. Senator Solowey then stated that if 33% of students did not understand the student survey, then that could also mean that 33% of students did not understand the task force survey question.

Brian Tyrrell then explained that the task force survey had more context than the student survey. He also added that in the past, surveys have received twice the response rate in a quarter of the time, suggesting a lack of concern for this issue among the students. President Tyrrell then stated that 72% of all faculty responded to the survey, demonstrating the importance of this issue among faculty.

Chair Solowey then stated that he must not vote against his own constituents, and that a majority of the students answered that they would prefer a 4:30pm start time.

Senator Davis then asked why they are considering the 12:30pm start time when this was the minority selection of both surveys.

Brian Tyrrell then explained that the Provost chose the 12:30pm start time.

**President Sarhan then motioned to end the question.**

Senator second: Vice President Dambroski

Motion passed: 22-1-0

Senator Patel asked about the duration of both surveys.

President Sarhan explained that the task force survey was open for 2-3 days, and the student survey was open for a little bit over a week.

First: Minutes from March 28<sup>th</sup>, 2017 (Full)  
Second: Minutes from April 4<sup>th</sup>, 2017 (Emergency)  
Third: Minutes from Committee

Chair Solowey then asked why only the two extremes of 12:30pm and 4:30pm are being discussed.

President Sarhan explained that herself and Vice President Dambroski attended the Faculty Senate meeting and proposed a 2:30pm compromise, and were then prompted to conduct the student survey which revealed that students preferred 4:30pm overwhelmingly, and that 2:30pm was in second place.

Chair Solowey then asked if 2:30pm would be an ample compromise between the two times.

President Sarhan then stated that that is a decision for the Senate to make.

Senator Greene then asked that if the module was moved to an earlier time, if classes would then be available at 4:30pm.

President Sarhan then stated that yes, the new class module time would be 4:30-5:50pm.

Chair Solowey then asked if Senator Moore was the student representative for the module task force, and asked, if so, how many meetings were attended.

Chair Moore explained that he was the student representative, and that he did not attend any meetings because the meetings were held during his class, but he was heavily involved online.

Chair Solowey then asked if the task force asked for any other student input besides Senator Moore.

Chair Moore said that they did not.

Senator Greene explained that the Senators have sympathy for the Faculty Senate's wishes, but that the Student Senate must vote in favor of the students since they are their constituents. He then explained that this resolution is merely a suggestion and is not the final decision.

Senator Mamounis then stated that the faculty voice is very important, but that the faculty also must rely on the students and their input and values.

Chair Hanvey stated that if this resolution were not approved, it would be a minimization of student voice.

**Senator Davis motioned to yield the floor to the public.**

A former student stated that faculty retention is very important and that we must consider the home life of the faculty when making the decision. He also suggested a referendum to the student body about the issue, generating more clarity in the question.

President Sarhan stated that the survey was clear, and that even with the subtraction of the students who did not understand the question, there was still a majority vote for a 4:30pm start time. She also added that this issue was not one that was initiated by the Student Senate.

**There is a motion on the floor to close the debate.**

Motion Passed: 22-2-0

**There is a motion on the floor to approve Resolution Sp17-002: Recommendation in regards to the Open Meeting Module.**

Senator second: Senator Hanvey

Motion Passed: 21-2-1

President Sarhan then stated that this resolution is simply the student opinion and that the administration will make the final decision. She wishes that everyone will respect, and listen to one another, and she recognized the importance of the faculty.

Chair Hanvey then stated the importance of the bridge between the Student Senate and the Faculty Senate.

The future president of the Faculty Senate asked the senators to attempt to empathize with the faculty who wish to be involved on campus but have obligations at home.

**Adjournment:** President Sarahan announced that the meeting was adjourned at 5:25pm.

We prefer that internships assigned to students are paid so that students can balance their class schedules and personal responsibilities.

The Student Senate is grateful to have had a busy and productive year. The accomplishments we achieved were a product of our team work, dedication, and guidance from numerous mentors.

On a personal note, I would like to thank you all for making this year truly remarkable. We faced challenges with pride, and blazed the trail for Senates to come. Good luck to all who have been re-elected!

Agenda:

Senator Fischer, Gernale, & Berry are working on library outreach and making helpful library resources more accessible to students. Gus and the library staff are really excited to collaborate with us and would like to see the library resources added to blackboard. Actions to be taken next year would be to take initiative to meet with blackboard project leaders and the library staff together, and see what we can do to associate the library resources with classes. Another option would be to have professors more directly use the library databases for coursework that directly affect their classes. Finally, a change we would like to see is having an updated library website that more explicitly stated purposes of certain programs and how to use them.

Agenda:

The Student Affairs Committee hosted its final event, The End of the Semester Town Hall, yesterday in F-111 at 4pm. It was event where students could come and pose their questions and discuss their concerns directly with administrators. Jim Rottler, Joan Fortune, Barbara Foder, and Mike Sullivan from SASI came as well as Stephanie Moye and Liz Masterson from Chartwells. We would like to thank SASI and Chartwells for working with us on this event and we look forward to working with them in the future. The Weekend Dining Trail run was a success. They will continue these changes for the rest of the semester and then get together to talk about what will be happening next year for weekend dining hours. This was an initiative started by the previous chairperson Carly Bulgia and something we were able to complete this semester, so overall it was a big success.

Throughout the year, Camillo has been working with the tutoring center to create a survey for an online tutoring survey. The survey is completed, and we are going to send it out next semester so that we can get a real feel about what the students want and then we can over the data. Jeremy has been working on getting the Student Senate Questions and Concerns Form on the Go-Portal, and he set up a meeting to try and bring about this change.

This whole year, the Student Affairs Committee has worked hard to make a difference at Stockton, and I am so happy that I got the chance to be a part of it. Every single member of this
