Galloway Township, NJ – The Richard Stockton College of New Jersey's mens basketball program will host a clinic for youth players in grades two through eight on Monday, January 16 from 10 a.m. to 12 noon. Area schools will be closed that day to observe the national Martin Luther King, Jr. holiday.

This is an opportunity for young players to learn fundamentals and the finer points of the game from coaches in one of the nation's best NCAA Division III programs.

The clinic will take place in the I-Wing gymnasium (the "old" gym) on the campus here.

For more information, please contact Stockton Assistant Men's Basketball Coach Scott Bittner at 609-374-6993 or email bittners@stockton.edu.
