POSTER CONTENT AND DESIGN

As long as the poster fits within the size limitations (see above), you are free to design your poster in any professional way you see fit. Posters should maintain a professional academic theme, be easy to read/view both in font and graphics, and should not be decorated with tissues, glitter, balloons, etc. It is best that posters be prepared in such a way that they are readable from a distance of 4 feet.

A brief description to your poster should be written ahead of time to share orally during the session. Be prepared to field questions and comments regarding your project, scope of work and the poster itself during the allotted time.
