This edition covers accomplishments reported between [September 2013 to August 2014](#), and does not include Day of Scholarship presentations in order to reduce the volume of entries. A supplement highlighting external funding activity will be published soon.

Thanks to all who spend time on scholarly work and notably contribute to the riches of Stockton. Past editions of the book are also available on the [Grants website](#).

## GRC Faculty Alert

Finding funding just became easier!! The Faculty Alert System is an automated, monthly e-mail system containing funding opportunities tailored to each faculty member’s specific needs. The alerts may include federal and private funding opportunities, with application deadlines extending out three months. As faculty needs will continually change, participants have the ability to alter their criteria at anytime.

To participate, simply complete a [Faculty Alert System Application](#) and return it to grants@stockton.edu. Because of a new filing system at the Grants Resource Center (GRC), applications will now be immediately put into the system and your funding opportunities alerts will begin without delay!
